- 6. The Rumanian production plan for 1951 called for production of 1,700 tons of canned food for army purposes. Leasures were taken to have stocks of about 9,000 tons of pork and beef available in the first quarter of 1951. For the last quarter of 1950, the Rumanian Army had ordered 800 tons of canned food. (h)
- 7. The immenian Army demanded that it be supplied with canned most and beans to an extent which could not be met because of a shortage of tinned sheet metal and beans. It was intended to import the canned meat from the U.S.S.R.

25X1 Comments.

25X1

(1) Of the officers mentioned only General Edmond Stanciu has been known so far.

In early 1950, Stanciu was in charge of supply and administration of the humanian Army.

It is therefore probable that he now holds an important assignment in the supply service of the Rumanian Armed Forces.

(2) In December 1947, a General Nicolescu, (fnu), was chief of the administrative services of the Rumanian Gendarmerie, which was later integrated into the Security Troops assigned to the Ministry of the Interior. He may be the Niculescu mentioned in the present report. A Jan Pop was known to be a captain in the gendarmeric in 1948.

(3) These data agree with previous information on the presence of Soviet troops in the towns mentioned. Remnicul Sarat possibly belongs to the billeting area of the Soviet division assumed to be located in the Braila area and south of it.

(h) With regard to the size of the Rumanian Armed Forces, the ration supply quantities mentioned are considered to be rather low.
